BTECHBUDDY - Engineering Mathematics - I

Solved University Examination Papers

Subject: MA101 | 1st Year Common to All Engineering Branches

Unit 1: Matrices - Rank of Matrix, Cayley-Hamilton Theorem, Eigenvalues & Eigenvectors.

Unit 2: Differential Calculus - Successive differentiation, Leibnitz theorem, Maclaurin and Taylor series.

Unit 3: Multivariable Calculus - Partial derivatives, Euler theorem for homogeneous functions, Jacobians.

Unit 4: Multiple Integrals - Double and Triple integrals, Change of order of integration, Beta and Gamma function

Unit 5: Vector Calculus - Gradient, Divergence, Curl, Gauss Divergence Theorem, Stokes Theorem.

Step-by-step solved questions with formulas highlighted for scoring 90%+ in semester exams.

BTECHBUDDY: Your Engineering Journey, Simplified.
